I am a 20 year old computer science graduate with robust software engineering skills in a diverse variety of popular languages and experience with a broad suite of industry standard development tools.

I am quick to learn and eager to develop new skills. I am looking to apply myself practically and earn experience in a challenging yet stimulating work environment.

Education

University of Southampton

BSc Computer Science - Second Class Honours 2020 - 2023

- Strong theoretical background in computer science
- Broad skill set and experience in a wide variety of computing fields.

University of Southampton, Malaysia Campus

Engineering Foundation Year 2019 - 2020

- Maths proficiency up to Calculus 3, fundamental physics and engineering skills

IGCSE 7A*s including Maths, English and 3 Individual Sciences 2018-2019

Relevant Skills

- Software Engineering using AGILE principles and MVC pattern
- Programming in Python, Java, C, C++, JavaScript, Haskell
- Shell scripting with bash, general purpose scripting with python and Lua
- Cross-Platform UI development with Flutter
- Desktop App development with Qt, Tk
- Front end web development with JS, CSS and HTML
- Strong Unix/Linux skills and experience with remote CLI (openSSH, SFTP, etc)
- Experience with industry standard build tools such as Maven and Cmake
- Proficient with Git Version Control workflows
- Experience developing for real-time systems and in performance-constrained environments

Relevant Interests

- Hobbyist electronics, with projects ranging from simple digital logic circuits to experience with projects involving single board computers.
- Co-founder and committee member of the University of Southampton's Powerlifting sports club. Taking the team to British University Championships (BUCS) for the first time.
